

# CHECK YOUR DECK®

May is Deck Safety Month®, the perfect time for homeowners to ensure their decks are in top condition for the season ahead.

A key element to enjoying your deck for years to come is making sure it is safe for your family, friends, and special family events such as birthday parties, graduations and weddings. In the interest of deck safety, homeowners should inspect their decks frequently and consider a professional deck inspection at least yearly.

There are deck safety checklists and information just for you, to assure you have details available to you to evaluate your deck. Please visit: [NADRA.org](http://NADRA.org) to view the 10-Point Consumer Checklist.
